BONLE ELECTRIC

TRANSMISSION LINE AND SUBSTATION CONSTRUCTION

ISO9001:2008

HISTORY

*Founded BONLE first Electric Plant in 1991

*Changed plant name to FUZHOU BONLE ELECTRICAL APPLIANCES CO.,LTD in 1996,obtained the right of Import and Export to supply oversea clients goods directly

*Established BONLE （FUZHOU） INTERNATIONAL CO.,LTD in 2000

*Invested and established BONLE Hardware Branch factory in 2001

*Obtained ISO9001:2000 certificate in 2004

*Invested and established BONLE(FUZHOU)HIGH VOLTAGE PORCELAIN INSULATOR CO.,LTD in 2004

*Invested and established BONLE(FUJIAN)ELECTRIC MANUFACTURING CO.,LTD in 2005

*Participated in international tenders in 2005, and won the value USD3.2million of Cross arm bid in Ethiopia at the same year.

*Moved Headquarters to BONLE Building of JinShan Industrial zone in 2006

*Invested and established BONLE(MINQING) HIGH VOLTAGE PORCELAIN INSULATOR CO., LTD. in 2006

*Invested and established BONLE(JIANGXI) CERAMIC CO., LTD. in 2009

*Constructed 3 set of substations in Abuja, which cooperated with Nigerian local contractors in 2010.

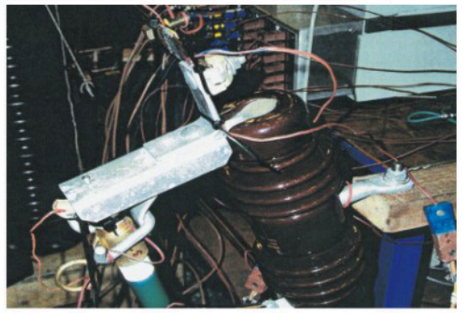

BRIEF INTRODUCTION

The Bonle Group was established in 1991, and has been focus working on the substation and transmission lines since 2000, the supply of all products and accessories including, but not limited to, insulators, power fittings (spindles, cross arms, strain clamps), cut out fuses, arrestors , and conductors.

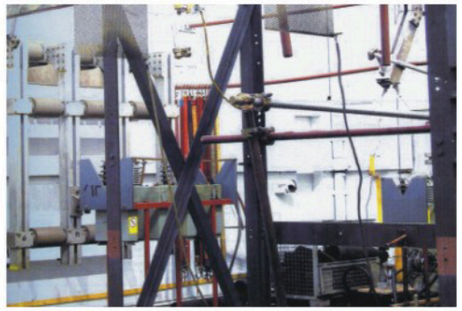

The electrical insulations manufactured by Bonle mostly have been certified to KEMA, VDE, CE, SGS ,also some product have passed testing are up to the TR standards of the China National centre.

Mr.Lai was in Control operation Room of Holand KEMA

Temperature–rise test in KEMA Lab

Breaking Test in KEMA Lab

MAIN BUSINESS CHANNEL

Bonle has been 19 years experience in High-voltage electronics. Till now it is sized with 7 factories total covering an area of 360,000M2,and 2000 employees.
And so far a long-term and close collaborative relationship has been set up between Bonle and more than 30 Chinese domestic suppliers , which assures a complete and mature system that runs well from the beginning of parts supplying to the substation and transmission lines terminal constructions.

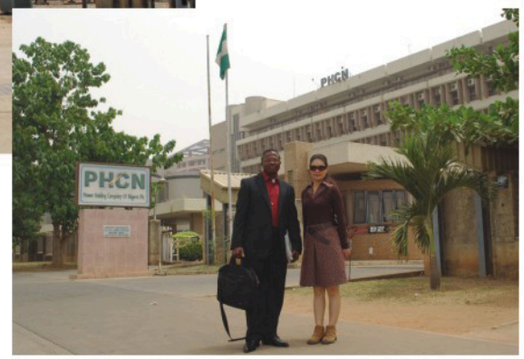

Main business channels

1. General business:
we provide current products or particular items according to drawings and samples from clients.
2.International Tenders:
Since 2005 Bonle has been focusing on international tenders as a new growth point of business，we have participated in some tenders of several countries. Only in 2010 , the value of bidding we took part in reached to USD40 million , and finally USD8 million of tender was won.
The scope of bids: Transmission line, Substation construction, lighting pole supply, and civil end-user electrical accessories supply.
3.Substation &Transmission line Projects:
Working with the local veteran contactors, since 2010 Bonle has entered the stage of contracting projects, those projects are installed by local companies to providing workers, equipments and transport equipments. BONLE providing products, technologies and services.

At a substation site Bonle participated in the construction, President Mr.Lai inspected the running conditions along with the engineers.
Site:Abuja Nigeria
Project:NIPP/EPC–D–LOT AB1–1

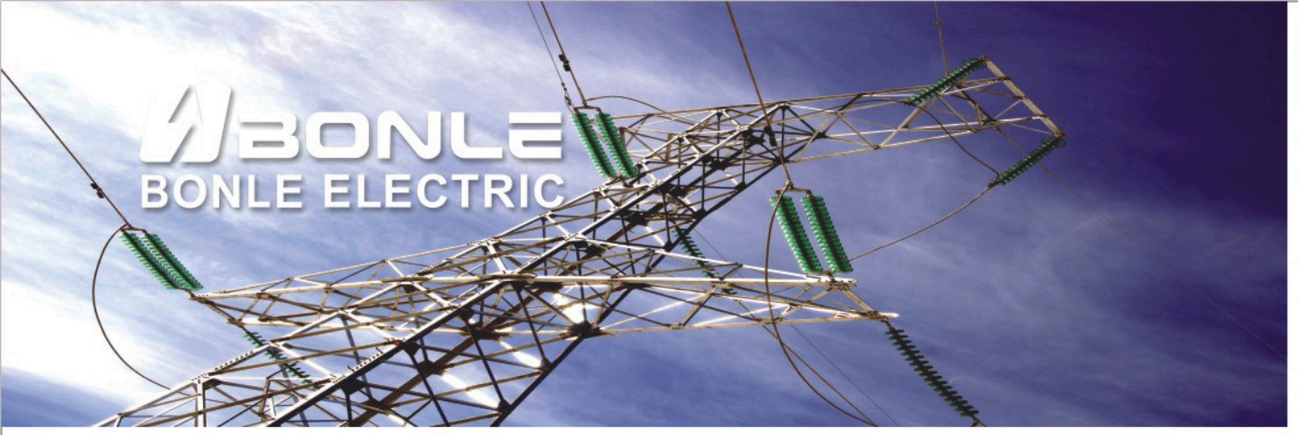

G.Manager Ms Wang with local agent in PHCN of Nigeria

Bonle supplied main products to substation construction
Site:Addis Ababa Ethiopia
Tender NO.:UEAP 12/98 LOT 1& EAEP 5/99

Bonle supplied main products to the completed works
Site:Abuja Nigeria
Project:NIPP/EPC–D–LOT AB1–1&AB3–3
